

product catalogue

We bring a fresh approach to design incorporating modern technology into everyday objects. Sometimes life can be complicated and technology too intrusive, therefore by keeping our product lines simple yet engaging and keeping our products up to date with technology, as well as being aesthetically pleasing has kept us driven, and the reason why our products have been so popular and successful around the world.

We thrive on seeking and creating the out of the ordinary, which enforces the foundation of our ethos, escape the boring: design for a smarter life.

Paul Sun
Co-Founder
Gingko Electronics Ltd

When time meets colour, we think it's glorious.

Housed in a bright colourful and sleek rubberised cube and designed with the ingenious touch sensitive snooze and gravity controlled alarm, the new colourful Gravity Cube Click Clock collection can make your every minute in bed matter. To snooze simply touch the soft top of this cube and to turn off the alarm, just turn it over onto any side. It's a great way to stop you fumbling in the dark looking for the snooze or off switch and make your every morning start with fun.

The Gravity Cube Click Clock still incorporates the same sound activated LED display technology as our other click clock ranges and it displays the time, date and temperature alternately at the click of your fingers or clap of your hands. When you need to check the time in the dark, just give a gentle tap of your bedside table or simple click of your fingers, the time will instantly appear for you and switch off automatically when you don't need it.

Bright ideas with bright colours bring you a brighter life...

cube
clickclock™
time at the click of your fingers

We're fascinated by time and we have a passion for clocks. We think time can be smart, stylish and functional as well.

The cube click clock can tell you the time, date and temperature alternately on a wood effect block at the click of your fingers. It automatically switches off when the room is quiet, lighting up again when the alarm goes off or as a response to clicked fingers or clapped hands. The numbers seem to float on the lovely wooden block, but that's just half magic of these clocks.

brick clickclock™

Time at the click of your fingers

We're all slaves to time, but now it's on your terms with these stylish Brick Click Clocks. Just click your fingers or gently tap your bedside table and the time will appear and looks like the time is magically floating on these wood/marble effect blocks. No longer does your room have to be illuminated by a constant blinking digital glow, nor do you have to fumble to find your smartphone in the darkness.

The Brick Click Clock can display the time, date and temperature alternatively or you can also set it on permanent time display. Best of all, due to its portable feature with a integrated rechargeable lithium battery, it can be placed wherever you like with no need to worry about too many wires around your room.

brick

- display time, date and temperature alternately
- LED display automatically switches off when it's quiet
- can have permanent display without going off

wall click clock™

The Wall Click Clock offers an unusual contrast to the conventional looking wall clock.

Using the floating natural wood effect surface, it can light up with the time by clapping or clicking your fingers and magically disappear when quiet. The contemporary design bridges the gap between modern and traditional without being flashy or tacky and will be the topic of conversation at your next home or office party

Music clickclock™

audio quality guaranteed

In a world crammed full of garish speakers and alarm clocks, sometimes you want your technology to be a little less conspicuous.

Housed in sleek wooden casing, the natural-looking Bluetooth Music Click Clock is your perfect bedside or desk accessory. This neat cuboid displays the time and date at the click of your fingers and crams in a myriad of other useful features. It's no slouch when it comes to sound quality, with a 6 watts of stereo output from 2 high fidelity audio drivers and passive subwoofers you can really give your music, games and movies some oomph. Keep your surroundings cable-free and stream your audio via any Bluetooth device.

Best of all, the in-built microphone lets you enjoy blissful hands-free calls from the comfort of your delectably warm bed.

- 10 meters bluetooth range
- compatible with most bluetooth devices
- 3.5mm stereo AUX input for non Bluetooth devices
- serious high quality audio
- LED display dims half automatically between 9pm and 7am
- in-built microphone to have hands free call
- alarm clock with snooze function
- week or weekend days alarm setting
- internal memory battery to keep your custom settings
- powered by 6V-1.0A AC/DC plug adapter
- product material: wood with oak/black wood finish

Halo One | better in one

Halo One | better in one

Inspired from the nature of simplicity and unity, Halo One is an original, modern, and breathtaking new designed Bluetooth/NFC speaker from Gingko. The aesthetically and fashionably shaped sound box reveals sexy curves and wood texture and delivers smooth sense of touch and phenomenal audio quality.

Halo One meets people's desire for adding an unusual, inspiring, and aesthetic table art in their living or working space, as well as seriously improving your listening experience from the two 1" tweeters with amazing stereo sound.

Plus, the touch sensitive control panel built underneath the smooth surface of the sound box and powered by built-in rechargeable lithium-polymer battery make your operating experience more enjoyable. To switch on or off Halo One, just simply touch the on/off switch and to adjust the sound volume, just slide up or down with one finger on the panel.

Halo One, better in one...
