DESIGN - QUALITY - TIME

product catalogue

AW2016

We bring a fresh approach to design

incorporating modern technology into everyday objects. Sometimes life can be complicated and technology too intrusive, therefore by keeping our product lines simple yet engaging and keeping our products up to date with technology, as well as being aesthetically pleasing has kept us driven, and the reason why our products have been so popular and successful around the world.

We thrive on seeking and creating the out of the ordinary, which enforces the foundation of our ethos, escape the boring: design for a better and smarter life.

Paul Sun
Co-Founder & Head of Sales
Gingko Electronics (UK) Ltd

We're fascinated by time and we have a passion for clocks. We think time can be smart, stylish and functional as well.

The click clock range can tell you the time, date and temperature alternately on a wood/aluminium/marble effect block at the click of your fingers. It automatically switches itself off when the room is quiet, lighting up again when the alarm goes off or as a response to clicked fingers, clapped hands or even a gentle tap. The numbers seem to float on this lovely block, but that's just half magic of these clocks.

The Cube Click Clocks are our classic and one of the best-selling designs. They're available in different material finishes to fit into different interiors.

Small but smart, simple but clever.

cube

- display time, date and temperature alternately
- LED display automatically switches off when it's quiet and lights up as a response to a clap, touch, or clicked fingers
- 12/24 hours clock and temperature display can be in Celsius or Fahrenheit

Cube Black Click Clock

Housed in a bright colourful and sleek rubberised cube and designed with the ingenious touch sensitive snooze and gravity controlled alarm, the new colourful Gravity Cube Click Clock collection can make your every minute in bed matter. To snooze simply touch the soft top of this cube and to turn off the alarm, just turn it over onto any side. It's a great way to stop you fumbling in the dark looking for the snooze or off switch and make your every morning start with fun.

The Gravity Cube Click Clock still incorporates the same sound activated LED display technology as the classical wood cube click clock ranges and it displays the time, date and temperature alternately at the click of your fingers or clap of your hands.

We're all slaves to time, but now it's on your terms with these stylish Brick Click Clocks. Just click your fingers or gently tap your bedside table and the time will appear and looks like the time is magically floating on these lovely bricks. No longer does your room have to be illuminated by a constant blinking digital glow, nor do you have to fumble to find your smartphone in the darkness.

The Brick Click Clock can display the time, date and temperature alternatively or you can also set it on permanent time display. Best of all, due to its portable feature with a integrated rechargeable lithium battery, it can be placed wherever you like with no need to worry about too many wires around your room any more.

wall click clock™

The Wall Click Clock offers an unusual contrast to the conventional looking wall clock.

Using the floating natural wood effect surface, it can light up with the time by clapping or clicking your fingers and magically disappear when quiet. The contemporary design bridges the gap between modern and traditional without being flashy or tacky and will be the topic of conversation at your next home or office party.

- display time, date and temperature alternately
- LED display automatically switches off when it's quiet and lights up as a response to a clap, touch, or clicked fingers
- 12/24 hours clock and available in Celsius or Fahrenheit format display
- European or American date format display setting
- LED display automatically dims half between 9pm and 7am

The new Radio Click Clock - strong, but certainly not silent.

The clean and uncomplicated design will certainly still grab anyone's attention and stands out from the rest of the radio crowd. The user friendly, on screen LED clock, FM frequency display or alarm time's floating appearance, contrasts against the natural and realistic material designs, that gives it a modern and mysterious edge. Wake up to the delightful stereo sounding radio from the beautifully lined-up 49 speaker dots and snooze to your hearts content with a simple press of the aluminium finished tuning button on top.

The Radio Click Clock also still includes all the fantastic features of our other Click Clock ranges- a clap of your hands or click of your fingers and the display magically lights up for a few seconds with the time, date and temperature and disappear while it's quiet when the radio is not in use.

- FM Radio with on screen frequency display
- automatic channel searching or manual tuning
- display time, date and temperature alternately or only on permanent time display
- on screen alarm time display
- radio or buzzer alarm option and 5 or 7 days alarm setting
- sound activated display or permanently stays on
- 12/24H clock and Celsius or Fahrenheit temperature display
- European or American date display
- LED display automatically dims by half between 9pm and 7am
- power supply: built-in 2000mAh rechargeable battery or wall plug adapter
- battery life: 7-8 hours when radio is constantly in use; 10-14 days when clock is on permanent display setting and 3-4 months in sound activated display setting.
- in-built internal memory battery to keep all your custom settings
- product material: wood with wood/aluminium/leather effect veneer finish
- available finishes: Aluminium, Marble, Ash, Maple, Leatherette
- product size: L: 17.9 x W: 5.4 x H: 10.5 cm
- product weight: 850 g

Product Code: GK16W5

Ash Radio Click Clock

Product Code: GK16R16
Leatherette Radio Click

Product Code: GK16Y18
Maple Radio Click Clock

The clean but ultra stylish and creative design creates a strong impact within any home interior. No matter where you place it, it stands out against any other radio alarm clocks.

The beautifully lined-up 49 speaker dots produce a reasonable stereo sound atmosphere and makes your time in the kitchen not just for cooking....

The classical leather effect material finish incorporates the latest technology and that delivers a beautiful appearance and a totally different radio experience.....

Plus, the industrial looking but smooth aluminium finished button isn't as simple as you might think... It controls the power of the radio, automatic or manual tuning, volume control and it's even your buzzer/FM radio alarm snooze button.

Music clickclock™

audio quality guaranteed

In a world crammed full of garish speakers and alarm clocks, sometimes you want your technology to be a little less conspicuous.

Housed in sleek wooden casing, the natural-looking Bluetooth Music Click Clock is your perfect bedside or desk accessory. This neat cuboid displays the time and date at the click of your fingers and crams in a myriad of other useful features. It's no slouch when it comes to sound quality, with a 6 watts of stereo output from 2 high fidelity audio drivers and passive subwoofers you can really give your music, games and movies some oomph. Keep your surroundings cable-free and stream your audio via any Bluetooth device.

Best of all, the in-built microphone lets you enjoy blissful hands-free calls from the comfort of your delectably warm bed.

- 10 meters bluetooth range
- compatible with most bluetooth devices
- 3.5mm stereo AUX input for non Bluetooth devices
- serious high quality audio
- LED display dims half automatically between 9pm and 7am
- in-built microphone to have hands free call
- alarm clock with snooze function
- week or weekend days alarm setting
- internal memory battery to keep your custom settings
- powered by 6V-1.0A AC/DC plug adapter
- product material: wood with oak/black wood finish
