

About Gingko

Gingko is an British Brand born in 2011 and was founded by Paul Sun and his wife Natalie Sun with the objective of designing and manufacturing high-end, yet stylish and functional products for home and design-led gifts.

We bring a fresh approach to design incorporating modern technology into everyday objects. Sometimes life can be complicated and technology too intrusive. Therefore by keeping our product lines simple yet engaging and keeping our products up to date with technology, as well as being aesthetically pleasing has kept us driven and inspired us to design our first product range - the Click Clock, which is now a very popular design around the world.

DESIGN, QUALITY & TIME are our design ethos when every Gingko object is born. We give every item an ultimate stylish look in a minimalist design, craft it with our passion and love in our best standard of quality, and design it to last when time goes by or fashion changes.

We thrive on seeking and creating the out of the ordinary, which enforces the foundation of our ethos, escape the boring: design for a better and smarter life.

say Hello to the Flip Click Clock

Natural materials, Intelligent technologies, Fine details.

The brand new Flip Click Clock is crafted with natural wood material (Cherry, Walnut, Ash and White Maple) and incorporated with the same **sound activated LED clock system** as our classic cube click clock, laser engraved **touch control top**, **in-built rechargeable battery** and the **new flip alarm technology**. It's designed to enhance your whole experience of day to day alarm clock use.

The technologies built into the Flip Click Clock changes your normal way of using an alarm clock. When the Gingko Logo shows on top it means the alarm is off and when the nicely engraved alarm icon shows on top instead it means the alarm is turned on.

The Flip Click Clock is **super-easy to set up**. To set the time and alarm, simply touch the fine laser engraved buttons. When the alarm goes off, gently **'stroke' any of these engraved buttons on the top to snooze and to turn off the alarm, you can easily flip it over and the numbers will magically correct themselves** to a normal display as well, keeping the same time and moving as accurate as before.

Flip Click Clock, a design object tailored to be playful .

Accurately operated and Silently disappeared

The Flip Click Clock retains the same sound activated feature as our click clock range. The display **automatically disappears** when it's quiet but still moves **perfectly accurate** every second. It lights up again when you give a gentle touch, or a cheerful clap, or **a magical click of your fingers**.

The Flip Click Clock only tells you the time now (12 or 24 hour format) and no longer alternates between date and temperature. However, this simplified display function has made it **super-easy** to set up.

In-depth details and outstanding features

- powered by in-built 2000 mAh rechargeable battery with USB charging cable included or DC5V plug adapter (not included)
- alarm clock in sound activated or permanent display
- 12 or 24 hours display
- natural wood finishes in walnut, cherry, white maple and ash
- touch control buttons
- flip technology: the numbers automatically correct themselves when it's flipped over
- battery life: approx 6 months in sound activated display or 2-3 weeks in permanent display
- charging time: 3-4 hours
- product size: 115 x 70 x 36mm / 4.25" x 2.75" x 1.42" (L*W*H)
- product weight: 150g / 0.33 lbs

G003W13
Flip Click Clock - White Birch

Distinctively selected, and Exclusively produced

Every natural wood crafted on the Flip Click Clock is distinctively selected with **our sensation of nature in style**, and every Flip Click Clock is **responsibly and exclusively produced** in Ginkgo's own people-driven factory.

The Flip Click Clock is currently available in ash, walnut, cherry and white maple wood finishes, to meet your needs of style for your home.

Efficiently powered and conveniently placed

The brand new Flip Click Clock is powered by an **integrated 2000mAh rechargeable battery** and battery life can last up to **more than 6 months** from one full charge when in sound activated display.

It's **fully portable** thanks to its rechargeable feature and that also makes it a perfect travel alarm clock.

EDGE™
Light Alarm Clock

Inspired from the cutting edge of bamboo, the brand new Gingko Edge Light Alarm Clock is very unique and a must-have edgy design. It's a smart and stylish space saving way to have a clock and a light at the same time either on your bedside or office table, or even simply fancy a nice travel light and clock.

When used as an alarm clock, the Edge Light Alarm Clock is very easy to use and set up thanks to its great ergonomic design. Powered by in-built rechargeable battery (USB charging adapter lead included), the Edge Light Alarm Clock is featured two alarms with shake snooze and dimmable soft screen light, so you can nicely see the time at night when needed whilst not disturbing your sleep. To turn off the alarm, just simply flip it over and it will instantly turn itself into a warm soft and cosy dimmable ambient light.

The Edge Light Alarm Clock designed and manufactured by Gingko reflects their design ethos and commitment to modern, functional yet stylish and great design.

Emotion meets functionality

A alarm clock for every day and a light for every night.

The innovative concept with its smooth seamless touch-feeling and beautiful ambient light created is impressive, not just because of its unusual design, but also because it's a very **efficient yet elegant** space-saving solution for any bedroom or other space where you would like it to be.

Nothing is more inspiring than a moment of lighting up the darkness

The Edge Light Alarm Clock is consistent.

Technology supports the functionality of this design. With an innovative and integrated **ball-switch**, The Edge Light Alarm Clock can turn into a dimmable light once you flip it over from the clock face. Use this before going to bed, it creates a very **soft and cozy** ambient light for you and helps you prepare for your sleep. Or you can sleep along with it while not disturbing you as it's fully dimmable. It's there waiting for you, whenever you need it in the dark or while you're awake, **bright or soft, cozy or calm...**

Nothing is more inspiring than the start of your day

The Edge Light Alarm Clock brings new enthusiasm to your day.

A strikingly sharp but smooth dynamic line stretches across the whole body of the clock, it lends a unique excitement to the Edge Light Alarm Clock.

The perfect balance of edge lines creates a statement of **Simplicity, Elegance, and Functionality.**

Nothing is more inspiring than the feeling that you have done everything right

The bamboo cutting-edge look defines its whole general feel, within which the user-friendly alarm clock and cozy soft dimmable ambient light is integrated and it's **powered by long-life in-built rechargeable battery**, up to **6 months battery life** time after one charge.

The Edge Light Alarm Clock is fitted with a **high quality** and **accurate time** chip which makes your every second right, matter and count.

A functional and confident appearance.

The R Space lamp

A line appears, it takes shape, which is then filled with life and turns it into an Art. A vision becomes tangible - real, space, lightness, which turns it into a design. Fascination. The brand new Gingko R Space Lamp comes into being.

The brand New Gingko R Space Lamp is a perfection through its most contemporary form. The R-shaped body simply looks like a 3D R when it's closed; But when it opens, it transforms itself into an elegant and stunning lamp emitting a delightful soft warm or cool white LED light (two light colour options) through this water and tear proof 'lantern' made of tyvek papers.

The R Space Lamp is dimmable and can be controlled by the supplied smart remote control, so you can easily dim it, turn it off or on, or change the light colour as you wish. Powered by a in-built 2500 mAh rechargeable battery makes the R Space Lamp fully portable or it can be permanently plugged in with a 5V USB plug charging adapter such as a smart phone USB charger (not included)

The Gingko R Space Lamp, a design, but also an art.

Satisfaction and expectation

Discover design that asks the questions of tomorrow and provides the most impressive answers today.

Experience elegance and simplicity that balances captivating presence with the utmost discretion and enjoy the satisfaction of expectations **not just when it's being closed, but also when it's being opened.**

The R Space Lamp - it's **a satisfaction that meets your expectation.**

Aesthetics and Perfection

The R Space Lamp is a perfection through its **most contemporary form.** The R-shaped body simply looks like **a 3D R** when it's closed; But when it opens, it transforms itself into an **elegant and stunning lamp** emitting a delightful soft warm/cool white LED light through this **water-resistance and tear proof** 'lantern' made of tyvek papers.

Playful in perfection and inspiration.

Cool and Cozy

The R Space Lamp looks as cool as a cool spaceship when it's opened, but it also creates either a 'cool' white or soft warm cozy light.

You can simply **switch the light colour in between cool white and soft yellow white light** by using the handy remote control, or you can just comfortably do the **opens-and-shuts**: 1st time open, it's a cool white light; shut it and 2nd time open, it's then a soft warm yellow light.

It's cool, fun and cozy...

Rechargeable and Dimmable

Powered by a **2500mAh integrated rechargeable long-life battery** (USB charging cable included) or a DC5V USB plug adapter, the R Space Lamp is **fully portable** so you can take it anywhere with you, or you can just permanently have it plugged in. Plus, with its **fully dimmable** feature (5 levels of brightness setting), you can just close your eyes and relax in a soft and romantic light environment or you can change it to the brightest mode to read a book by and discover your own land through the books.

R Space is your space ...

Features and Specifications

Specifications are the units of how the product is being formed and features are the elements of how the product is working, below is a list of features and specifications of the R Space Lamp:

- powered by in-built 2500 mAh rechargeable battery with USB charging cable
- USB charging or plug adapter power Voltage: 5V
- natural wood finishes in walnut and maple
- remote control or open-and-shut operated
- dimmable
- colour light temperature: cool white (5000k) or soft warm yellow white (2700k)
- rated power: 4.5W
- battery life: 8 hours in brightness mode and 72 hours in least brightness mode
- charging time: 3-4 hours
- product size: when closed: 145 x 250 x 25mm / 5.70'' x 9.84'' x 0.98'' (L*W*H)
- product size: when opened: 290 x 250 / 11.40''x 9.84

Natural and Style

The open but light-off R Space Lamp looks as good as when it's closed or lit up and it is currently **available in classy walnut and light maple finishes**. Both finishes can be switched between warm white light or cool white light mode.

It meets your needs for a match whether you have dark or light wooden furniture. But it's not purely just a match, **it's also a combination of style and nature.**

Octagon One

Rechargeable Desk Light

The Octagon One desk lamp is the winner of 2018 Gift of the Year and also the Judge's choice award in the U.K. The Gift of the year award is the most highly respected award for home and gift product industry in Britain.

The Octagon One desk light combines the best of simple and natural effect finish to achieve its modern industrial aesthetic. The focal point of the design is a beautifully shaped Octagon wood/marble finish base with touch control button and in-built rechargeable battery which makes it to be a totally wireless desk lamp and allows it to be positioned at three different angles. Mounted in the base is a milled aluminium casing but in wood finish which contains 36 high quality LED light bead with light diffusing cover.

Octagon One is a purposeful yet organic design, as well as a warm addition to any desk or office space.

Smart Book Light

A design object with the wow factor

The Smart Book Light is definitely a great additional piece of art to any home; when closed, this smart Book Light masquerades a laser-cut wooden book, but when opened it transforms into a sculptural light emitting a wonderful ambient warm soft LED light through the pages.

The beautiful, exquisite design opens to full 360 degrees with cleverly concealed magnets and the lovely soft touch papers are tear-proof and water-resistant that are lightened up by long-lasting LED lights. Inside the laser-cut wood cover lies an interior lamp body made from durable, water-resistant Tyvek "pages" containing high-performing LEDs.

The dynamic, multifunctional light can be opened to 360 degrees and comes with a micro-USB charger. It is assembled by hand and has a battery life of up to eight to ten hours.

- LED life-span: about 50000hrs
- colour temperature: 2700K
- output: 400 lumen
- power supply: in built rechargeable Lithium Polymer
- battery life: 6-8 hours in constant use

- charging time: 4 - 5 hours
- can be opened up to 360 degrees
- magnetic covers so it can be attached to any metal object on the wall etc
- product Material: maple wood and water-resistant Tyvek paper

clickclock™
time at the click of your fingers

We're fascinated by time and we have a passion for clocks. We think time can be smart, stylish and functional as well.

The click clock can tell you the time, date and temperature alternately on a wood/aluminium/marble effect block at the click of your fingers. It automatically switches itself off when the room is quiet, lighting up again when the alarm goes off or as a response to clicked fingers, clapped hands or even a gentle tap. The numbers seem to float on this lovely block, but that's just half magic of these clocks.

The Click Clock Collection are available in Cube (as left image), Brick, Slab sizes, plus a round version for wall purpose. Each size collection are available in different material finishes to fit into different interiors.

Small but smart, simple but clever.

Cube Beech Click Clock

cube

in colours

Housed in a bright colourful and sleek rubberised cube and designed with the ingenious **touch sensitive snooze** and **gravity controlled alarm**, the new colourful Gravity Cube Click Clock collection can make your every minute in bed matter. To snooze simply touch the soft top of this cube and to turn off the alarm, just turn it over onto any side. It's a great way to stop you fumbling in the dark looking for the snooze or off switch and make your every morning start with fun.

The coloured Cube Click Clock still incorporates the same **sound activated LED display technology** as the classical wood cube click clock ranges and it displays the time, date and temperature alternately at the click of your fingers or clap of your hands.

brick

We're all slaves to time, but now it's on your terms with these stylish Brick Click Clocks. Just click your fingers or gently tap your bedside table and the time will appear and looks like the time is magically floating on these lovely bricks. No longer does your room have to be illuminated by a constant blinking digital glow, nor do you have to fumble to find your smartphone in the darkness.

The Brick Click Clock can display the time, date and temperature alternatively or you can also set it on permanent time display like the cube. Best of all, due to its portable feature with a integrated rechargeable lithium battery, it can be placed wherever you like with no need to worry about too many wires around your room any more.

Walnut Wall Click Clock

Analogue clickClock™

Inspired from the nature of simplicity and the look of a traditional analogue clock face, the NEW Analogue Click Clock designed by Gingko has a ultra-stylish and contemporary look. The cutting edge and aesthetical design makes it stand out from any traditional or digital analogue clock crowd and it certainly catches people's attention no matter where you put it, in your sitting room, office, kitchen or lounge .

The Analogue Click Clock can be placed on the table/shelf, or it can also be wall mounted. It meets people's desire for adding an unusual and aesthetically pleasing objet d'art in their living or working space, as well as telling the time in a very inspiring way.

Plus, the second dot moves every second on the circle face and looks like it's magically dancing on this beautiful piece of design, which makes it even more inspiring and appealing.

The Analogue Click Clock still features an alarm and sound activated functions, the same as our other click clocks. It can also be set to display permanently.

Analog Click Clock Collection

Available in Ash, Black, Aluminium/Grey, Walnut

- time display in a traditional analogue face combining with the modern and latest LED display technology
- Analogue display face automatically switches off when it's quiet and light up as a response to clicked fingers or clapped hands, or it can be set display permanently
- power supply: DC 5V/0.5-1A plug adapter (included) or in built back-up rechargeable battery (for back up use only)
- in built rechargeable back-up battery life: approx 2 days in permanent display or 2 weeks in sound activated display.

- 2 weeks in sound activated display.
- alarm with snooze
- LED display light: white in black and aluminium finish, green in ash finish and red in walnut finish.
- product material: MDF Wood with wood or aluminium effect veneer
- product size: 250 x 250 x 65mm (L x H x D)
- product weight: 1200 g

radio clickclock™

The Radio Click Clock - strong, but certainly not silent.. The clean and uncomplicated design will certainly still grab yours attention and stands out from the radio crowd. The user friendly, on screen LED clock, FM frequency display or alarm time's floating appearance, contrasts against the natural and realistic material designs, that gives it a modern and mysterious edge. Wake up to the delightful stereo sounding radio from the beautifully lined-up 49 speaker dots and snooze to your hearts content with a simple press of the aluminium finished tuning button on top.

The Radio Click Clock also still includes all the fantastic features of our other Click Clock ranges- a clap of your hands or click of your fingers and the display magically lights up for a few seconds with the time, date and temperature and disappears while it's quiet when the radio is not in use.

- FM Radio with on screen frequency display
- automatic channel searching or manual tuning
- display time, date and temperature alternately or only on permanent time display
- on screen alarm time display
- radio or buzzer alarm option and 5 or 7 days alarm setting
- sound activated display or permanently stays on
- 12/24H clock and Celsius or Fahrenheit temperate display

- European or American date display
- LED display automatically dims by half between 9pm and 7am

Quiet...
let's listen and relax

Halo One | better in one

Halo One is an original, modern, and breathtakingly designed Bluetooth/NFC speaker from Gingko. The aesthetically and fashionably shaped sound box reveals elegant curves and wood texture and delivers smooth sense of touch and phenomenal audio quality.

Halo One meets people's desire for adding an unusual, inspiring, and aesthetic table art in their living or working space, as well as seriously improving your listening experience from the two 1" tweeters with amazing stereo sound.

Plus, the touch sensitive control panel built underneath the smooth surface of the sound box and powered by built-in rechargeable lithium-polymer battery make your operating experience more enjoyable. To switch on Halo One or to adjust the sound volume, just slide up or down with one finger on the panel and it feels like your finger is dancing on this beautiful shaped sound box.

Halo One, better in one...

Dimensions - - - - - L 200 * H 220 * W 115 (mm)
