

escape the boring, design for a smarter life

## About Gingko

Gingko was founded in Oxford, England in 2011 by Paul Sun and his wife Natalie Sun with the objective of designing and creating high-end, yet stylish and practical products for home and design-led gifts.

We bring a fresh approach to design incorporating modern technology into everyday objects. Sometimes life can be complicated and technology too intrusive. Therefore by keeping our product lines simple yet engaging and keeping our products up to date with technology, as well as being aesthetically pleasing has kept us driven and inspired us to create every single new product as well as to our everyday work.

Design, Quality & Time are our design ethos when every Gingko object is born. We give every item an ultimate stylish look in a minimalist design, craft it with our passion and love in our best standard of quality, and create it to last as time goes by.

We're currently based in Kenilworth, Warwickshire, about 10 minutes away from Warwick and 2 hours drive from London City Centre. We strongly believe that a united growth with our beloved customers is a better growth and we thrive on seeking and creating the out of the ordinary for our global business partners and customers, which enforces the foundation of our ethos, escape the boring: design for better and smarter life.

# Lightings

It could be something simple but elegant. It could be something functional yet stylish. It could also be a statement of sculptural art, yet a solution to solve your lighting problems.

Discover our lighting collection now and we're sure we have something here to delight you. Like when you find a light in the darkness..

## Smart Accordion Lamp

Inspired by the shape of an accordion, the brand new Gingko Smart Accordion Lamp is a must have home accessory for any room.

To open it, simply pull it as you would play an accordion, and it will instantly transform into a sculptural light emitting a wonderful ambient warm LED light through the accordion shaped pages. Close it and open it again, it magically changes to cool white LED light instead of warm light as before; when it's fully closed, it masquerades as a laser-cut wooden hexagon display object.

This aesthetically pleasing design has a magnetic cover on both sides, so you can open it to a full 360 degrees. You can also connect it to as many units as you wish to create your own piece of sculptural art.

The smart design reflects our design ethos of creating stylish yet functional, modern but great sustainable design.

## Technical Features

- LED life-span: about 50000hrs -
- two colour temperature options : 2700K (warm light colour) and 5000k (cool white light) in one product -
  - output: 400 lumen -
- power supply; in built rechargeable Lithium Polymer -
  - battery life: approx 7-10 hours in constant use -
    - charging time: 3 - 4 hours -
    - can be opened up to 360 degrees -
  - powered by in-built 2200mAh rechargeable li-on battery -

### Octagon One Portable Desk Light

This multi-award winning Octagon One portable desk lamp combines the best of simple and natural effect finish to achieve its modern industrial aesthetic. The focal point of the design is a beautifully shaped Octagon wood/marble finish base with touch control button and in-built rechargeable battery which makes it to be a totally wireless desk lamp and allows it to be positioned at three different angles. Octagon One is a purposeful yet organic design, as well as a warm addition to any desk or office space.

2020 NEW BLACK MARBLE

A good design is not just about what you can do with it,  
but also about how you can do with it.

## Smart Book Light

a design object with the wow factor

The Ginkgo Smart Booklight is definitely a great additional piece of art to any home; when closed, this smart Book Light masquerades a laser-cut wooden/leather/linen fabric 'book' (depending on the collection material), but when opened it transforms into a sculptural light emitting a wonderful ambient warm white light through the pages.

The beautiful, exquisite design opens to full 360 degrees with cleverly concealed magnets and the lovely soft touch papers are tear-proof and water-resistant that are lightened up by long-lasting LED lights. Inside the laser-cut wood or leather cover lies an interior lamp body made from durable, water-resistant Tyvek "pages" containing high-performing LEDs.

## Technical Features

- LED life-span: about 50000hrs
- colour temperature: 4500K (warm light colour)
- output: 400 lumen
- power supply: in built rechargeable Lithium Polymer
- battery life: 6-8 hours in constant use
- charging time: 4 - 5 hours
- can be opened up to 360 degrees
- product Material: **natural wood, fibre leather or linen fabric** with water-resistant Tyvek paper
- 24 x 21.5 x 18 cm (large size when 180 degrees opened)
- 18 x 12.2 x 9 cm (mini size when 180 degrees opened)
- 9 x 12.2 x 2.5 cm (mini size when closed)
- 17 x 21.5 x 2.5 cm (large size when closed)

## R SPACE LAMP

A line appears, it takes shape, which is then filled with life and turns it into an Art. A vision becomes tangible - real, space, lightness, which turns it into a design. Fascination. The brand new Gingko R Space Lamp comes into being.

The brand New Gingko R Space Lamp is a perfection through its most contemporary form. The R-shaped body simply looks like a 3D R when it's closed; But when it opens, it transforms itself into an elegant and stunning lamp emitting a delightful soft warm or cool white LED light (two light colour options) through this water and tear proof 'lantern' made of tyvek papers.

The R Space Lamp is dimmable and can be controlled by the supplied smart remote control, so you can easily dim it, turn it off or on, or change the light colour as you wish. Powered by a in-built 2500 mAh rechargeable battery makes the R Space Lamp fully portable or it can be permanently plugged in with a 5V USB plug charging adapter such as a smart phone USB charger (not included)

The R Space Lamp, an inspiring object.

## Technical Features

# Audio

We no longer simply need a speaker that can play your favourite tunes with a decent sound, we also want it to be aesthetically pleasing to look at, friendly and fun to use, and also most importantly for our environment, sustainably made.

Meet our audio collection and we will meet all the your desires above.

## Tumbler Selfie Speaker

- Anytime, Anywhere, Any Moment

Housed in a 100% natural and sustainable walnut wood casing and breathable fabric top, the Tumbler Selfie Bluetooth Speaker designed and made by Gingko is not just any portable selfie speaker.

This handy and sleek looking design not only plays your favourite tunes with a powerful sound in such a neat size, but also features a hands-free Selfie function to capture any moment at any time, anywhere. It also comes with a stylish hand strap to make it even more portable and the hidden USB charging port on the back of the tumbler makes it look even more sleek. Powered by in-built rechargeable battery and it has a long battery life up to 10 hours playing.

Plus, the unique tumbling feature certainly makes this design stand out from the speaker crowd and creates a little bit more fun to your music experience. Listen, play and interact!

# Clocks

We're all slaves to time. However, we can decide when we would like to make a change of how our time should show up and be displayed.

Combining functionality with an aesthetic appeal, our clock collection has something to really inspire and please you. From our Gift of the Year Winner Flip Clock Clocks, to our classical best selling original cube Click Clocks, they're all good enough for you to start making a change.

## Flip Click Clock

The UK Gift of the Year Award-winning Flip Click Clock changes your normal way of using an alarm clock. When nicely engraved alarm icon shows on top, it means your alarm is turned on, otherwise, it's turned off.

Made of natural wood material, the Flip Click Clock is **super-easy to use**. To set the time and alarm, simply touch the fine laser engraved buttons. When the alarm goes off, gently **'stroke' any of these engraved buttons on the top to snooze and to turn off the alarm, you can easily flip it over and the numbers will magically correct themselves** to a normal display as well, keeping the same time and moving as accurate as before.

Powered by in-built rechargeable battery and activated by any sound or vibration, so the LED display disappear when it's quiet and light up when you give a tap, touch or click your fingers. You can also set it on permanent display if you wish.

Flip Click Clock, a design object tailored to be playful .

Light + Alarms

dimnable light  
& dual alarms with shake snooze

clickclock™  
time at the click of your fingers

Time can be smart, clever, ultra-stylish, functional and simple with our cube click alarm clock.

The original Ginkgo Cube Click Clock can tell you the time, date and temperature alternately in LED numbers on a wood grained or other finished cube block at the click of your fingers and automatically switches off when the room is quiet, lighting up again when the alarms goes off or as a response to clicked fingers or clapped hands. The numbers seem to float on the lovely wooden block, but that's just half the magic of the cuboid with a conscience.

Small, but smart; simple, but clever.

# brick

We're all slaves to time, but now it's on your terms with these stylish Brick Click Clocks. Just click your fingers or gently tap your bedside table and the time will appear and looks like the time is magically floating on these lovely bricks. No longer does your room have to be illuminated by a constant blinking digital glow, nor do you have to fumble to find your smartphone in the darkness.

The Brick Click Clock can display the time, date and temperature alternatively or you can also set it on permanent time display like the cube. Best of all, due to its portable feature with an integrated rechargeable lithium battery, it can be placed wherever you like with no need to worry about too many wires around your room any more.

## Technical Features

## radio clickclock

The Radio Click Clock - strong, but certainly not silent.. The clean and uncomplicated design will certainly grab your attention and stands out from the radio crowd. The user friendly, on screen LED clock, FM frequency display or alarm time's floating appearance, contrasts against the natural and realistic material designs, that gives it a modern and mysterious edge. Wake up to the delightful stereo sounding radio from the beautifully lined-up 49 speaker dots and snooze to your hearts content with a simple press of the aluminium finished tuning button on top.

The Radio Click Clock also still includes all the fantastic features of our other Click Clock ranges- a clap of your hands or click of your fingers and the display magically lights up for a few seconds with the time, date and temperature and disappear while it's quiet when the radio is not in use.

# radio collection
